2 capsules daily**

Product Summary

RememBrandtz is a revolutionary memory enhancement supplement. RememBrandtz is formulated by Dr. Richard Mynatt with 40 years' experience as a practicing urologist. He chose only the best all natural ingredients that have been proven to work in clinical studies. He is proud to bring to the market a well-researched, proven to work, all natural memory enhancement supplement.

You feed your body with vital nutrition daily but are you feeding your brain what it needs?

RememBrandtz is the solution to your brains nutritional needs.

RememBrandtz enhances the brains ability to concentrate on the task at hand, improves working memory which allows you to remember information while working or studying, Improves long term memory with details that many of us need such as names, addresses, places, and events. RememBrandtz also improves your processing of information. The brain requires vital neurochemicals to prevent memory loss and promote sharpness and information processing. RememBrandtz provides these vital neurochemicals that are the basis for healthy brain function, which allow you to work harder, smarter and more productively. RememBrandtz is powered by several all-natural ingredients that target your brain's natural tendency to retain knowledge and recall stored information.

Bacopa Monnieri:

In clinical studies this ingredient has shown to improve working and logical memory, and well as memory as it related to personal life. Bacopa introduces vital phytonutrients known as bacosides that help nerve cell repair, production and signaling. This can help improve memory, learning and speed of processing. This also enhances the activity of vital neurotransmitters involved with memorization which can help with studying.
