

## Ingredients:

12-ounce bag of ground Seaside, our Honduras Natural medium light roast

## Product Summary

### Seaside Coffee Medium Light Roast

Medium light roast coffee is roasted to a medium level of roast, but closer to the light end of the spectrum. This type of roast typically results in a coffee with a light brown color and a mild flavor profile, with hints of sweetness and acidity. It is less bitter than darker roasts and allows for the nuances of the coffee bean's origin to shine through. Medium light roast coffee is a popular choice among coffee lovers who enjoy a balanced and nuanced cup of coffee.

## About our Vendor

Our coffee is carefully curated for java lovers from all walks of life.

Our **vendors** have decades of experience working with coffee, and the passion they exude for what we produce is evident in a perfectly-smooth, evenly-roasted cup each and every time. So , sip it slow or grab one on the go, enjoy it hot or over ice. We're here to make your day extraordinary.
