

Ingredients: Plant-based surfactants, water, Polyvinyl alcohol, glycerol

Product Summary

Laundry Detergent Sheets

Laundry strips have become increasingly popular due to their many benefits.

Laundry strips are much more environmentally friendly than traditional laundry detergents as they come in a strip form with no excess packaging. They also require less water to manufacture and transport, reducing their carbon footprint.

Secondly, laundry strips are more convenient to use, as they are pre-measured and dissolve easily in the wash. They are also lighter and easier to store than bulky detergent bottles. Lastly, laundry strips are gentle on clothes and skin, as they are free from harsh chemicals that can cause irritation.

Overall, laundry strips are a great choice for those looking for a more sustainable and convenient laundry solution.

Responsible Cautions
